

Eke Martin - Web Developer

About Me

I am a passionate and self-driven web developer with 3 years of experience in tech. I specialize in building dynamic, responsive, and user-focused websites using modern tools and frameworks. My journey in tech started with a curiosity to create functional and beautiful websites, and ever since, I've kept growing by learning new technologies and building real-world projects.

Tech Stack

Tools I Use for Projects:

- Frontend: HTML, CSS, JavaScript, Tailwind CSS, React.js, Alpine.js
- Backend: PHP, Laravel, MySQL
- Version Control: Git, GitHub
- UI Design: Figma, Canva
- Others: VS Code, Postman, XAMPP

Tools I'm Still Learning:

- Next.js
- TypeScript
- GraphQL
- Docker
- GitHub Actions (CI/CD)
- Testing (Jest, PHPUnit)

Experience

Freelance Web Developer

Remote | Jan 2022 - Present

- Built responsive websites for clients in real estate, portfolio, and e-commerce sectors.
- Developed admin dashboards with data metrics (users, messages, transactions).
- Integrated contact forms, email messaging, and secure payment gateways.
- Applied SEO and performance optimization techniques.

Eke Martin - Web Developer

Projects

- Real Estate Dashboard - Laravel + Tailwind admin panel showing sold properties, user stats, and earnings.
- Developer Portfolio - Personal website showcasing my skills, projects, and tools used.
- Mini E-commerce Store - Basic product listing and cart system with admin backend.

Education

Web Development / Computer Science - 2022
